

Link Module Technical Specification

Technical Specification – KwêBeams Wireless Link Module

Dimensions:	116(H), 45(W), 24(D)
Average Power consumption:	35 uA
Power Supply:	2 X (2000 – 2700 mA/H AA alkaline batteries)
Battery life:	3 years with recommended batteries
Accelerometer sensor:	Tilt and vibration detection
2 x Optical Inputs:	Alarm and Tamper inputs
Output:	Power output when system is armed
Kwêbeam Radio:	2-Way wireless communication - 868 Mhz
Repeater Function:	Repeaters can be daisy chained for longer distance
Wireless Range:	1km Line of Sight
